Logistic Manager

Job brief

We are looking for a reliable logistics manager to be responsible for the overall supply chain management. You will organise and monitor the storage and distribution of goods.

The goal is to manage the entire order cycle so as to enhance business development and ensure sustainability and customer satisfaction.

Responsibilities

- Strategically plan and manage logistics, warehouse, transportation and customer services
- Direct, optimize and coordinate full order cycle
- Liaise and negotiate with suppliers, manufacturers, retailers and consumers
- Keep track of quality, quantity, stock levels, delivery times, transport costs and efficiency
- Arrange warehouse, catalog goods, plan routes and process shipments
- Resolve any arising problems or complaints
- Supervise, coach and train warehouse workforce
- Meet cost, productivity, accuracy and timeliness targets
- Maintain metrics and analyze data to assess performance and implement improvements
- Comply with laws, regulations and ISO requirements

Requirements

- Proven working experience as a logistics manager
- Record of successful distribution and logistics management
- Demonstrable ability to lead and manage staff
- Proficient in standard logistics software
- Excellent analytical, problem solving and organisational skills
- Ability to work independently and handle multiple projects
